i-Scan

PHOSPHOR PLATE SCANNER

High processing capacity

AI-controlled heterogeneous AMD CPU

Use different types of cores ► Greater capacity and faster processing of HD images.

Ultra-High-Resolution Display

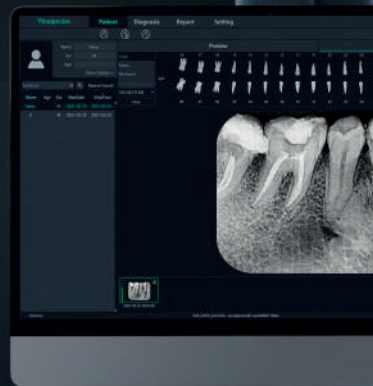

7-inch touchscreen with a resolution of **800x1280 pixels**, allowing you to easily zoom in on and edit images directly on the device's screen.

Smart IP Configuration

It allows for manual or automatic IP configuration via a wired (Ethernet) connection.

Its multi-level structure and intelligent optimization produce ultra-high-resolution images, enabling detailed visualization.

Quick and easy to use | 1 Click

Just **one click** to start, scan, and obtain high-quality digital images ready for diagnosis.

Powerful software

Easy to use and fully functional.

Professional and precise image processing and intelligent image optimization

Compact size

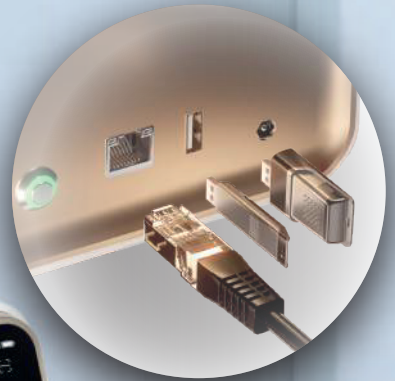

Measuring 13.8 x 24.5 x 29 cm, it is ideal for any dental practice, streamlining the workflow without any complications.

5G Connectivity + Connectivity + Versatility

NEW and multiple connection options ► Stable connection with no fluctuations:

- Wired connection with an adapter.
- Direct wired connection.
- Wired connection via router.
- Wi-Fi connection.
