WOODPECKER

The choice of millions of dentists worldwide

UDS-P & UDS-P LED

The **UDS-E** is a benchtop piezoelectric ultrasonic device designed for dental prophylaxis, periodontics, and endodontics. Its simplicity is its strength. Automatic feedback and constant output power make the device exceptionally effective.

Three programs: **Prophylaxis (G), Periodontics (P), and Endodontics (E)**, which are easy to program thanks to their user-friendly display that allows for use even with wet gloves

Scaling | Perio | Endo
